VERSE 1 moment is here we gotta get ready. No need to be sure no need to be steady.
 VERSE 2 Riding a along out in the night. The picture is there if you've got the sight.
 VERSE 3 The wind in your face lovely to feel. The others behind hot on your heels.

Am Em

All of your dreams are gonna be real tonight.
 Only some smoke is all that you need for the race.
 Know what its like to be traveling free from the earth.

Em G

Free at last how does it feel. Spinning around on fortunes wheels
 Every thing done. Every thing said. Everything now left to your heads.
 Lost in space riding the stars Could it be Venus could it be Mars.

Am₃ 3 Em

So many things to be seen up a---head in the light.
The one up the front is already setting the pace.
Now you're turned on, ride it for all that it's worth.
